Professional cleaning products

ABOUT OUR COMPANY...

We are engaged in the production of professional household chemicals. The main products of our offer are:

- car cosmetics
- household cleaning products
- industrial and workshop chemistry

In our offer you can also find necessary materials and tools for work, such as pressure sprayers, brushes, cleaning cloths, etc.

We offer a free audit to reduce the costs associated with maintaining fleet and facilities.

We provide our clients with technical support in choosing the right assortment and provide constant and timely delivery of goods. We have a full technical documentation of our products.

Take your time and comfort,
try our quality and professionalism.

PURE PERFECTION PC213

Car Wash Active Foam

Concentrate of cleaning agent designed for washing cars. Thanks to the foam consistency, it stays on the cleaned surface for a very long time. Effectively removes road dirt and other staining created during the operation of the vehicle.

The product is designed for washing using a pressure foaming machine (pH = 12).

Available weight:

1kg | 7kg | 11kg | 22kg | 66kg | 220kg

SHAMPOO ACTIV PC212

Active car shampoo

Extremely efficient concentrate designed for cleaning cars. Thanks to its foam consistency, it stays on the cleaned surface for a very long time. Effectively removes road dirt and other staining created during the operation of the vehicle. Thanks to its unique composition, it leaves a delicate gloss on the bodywork. It does not leave streaks. The product is designed for pressure or hand washing (pH = 9)

Available weight:

1kg | 7kg | 11kg | 22kg | 66kg | 220kg

SHAMPOO

PC211

Car shampoo with a neutral pH

Concentrated car shampoo, which can be used for both manual and automated car washes. Effectively removes road dirt and other impurities without leaving stains. Thanks to its neutral pH (pH = 7) it does not wash off hard waxes, it does not destroy protective coatings.

Available scents:
• PC 211 - lemon
• PC 216 - big bubble

Available volume:

1l | 6l | 10l | 20l

BLACK

PC202

Plastic and rubber coating solution

Extremely effective preservative product with a gloss finish.

Protects plastic and rubber elements: tires, bumpers, door handles, defects, slats, seals (prevents from freezing in winter), dashboards (leaves gloss). The product does not stick and dries completely leaving a velvety shine. It gives the effect of a "wet tire", while protecting the surface from salt and external factors i.e. sunlight. Protects against drying and delays the aging process of the rubber (parrying).

Available volume:

200ml | 750ml | 1l | 6l | 10l | 20l

RED MONSTER

PC201

Rim cleaner

Extremely effective and very efficient concentrate with acidic pH for washing rims (pH = 1). It easily removes brake pad deposits from rims as well as any dirt formed on the road. while remaining safe for tires and rims. It is suitable for both aluminum and steel rims.

Available volume:

750ml | 1l | 6l | 10l | 20l

WHEELRIMS

PC201

Rim cleaner

An alkaline liquid for cleaning varnished rims (pH = 12). It can be used with any mechanical and pressure washing equipment. The preparation is intended for a direct use, it does not require dilution.

Available
volume:
600ml | 6l | 10l

INSECT

PC204

Car bug and insect residue remover

Extremely effective solution for removing bugs and insect residues from the surface of windows, reflectors and car bodies. It gets rid of even difficult to remove dried bugs and insects. The product is ready to use, it does not require dilution.

Available
volume:
600ml | 6l | 10l | 20l

COCKPIT

PC205

Preserving coating spray for plastics – matte

The product is designed to preserve elements made of plastics, including car centre consoles. Anti-static spray that restores the natural look. It does not leave a greasy layer. It has a pleasant, fresh fragrance.

Available
volume:
200ml | 600ml | 6l | 10l

PLASTIC PASSION PC219

Plastic Surfaces Cleaning Solution (APC)

The product is intended for cleaning all plastic surfaces, such as: car interior elements, window and door frames, garden furniture, kitchen appliances and other objects made of plastic. It easily removes old stubborn stains. For outer surface cleaning, does not require scrubbing. It has anti-static properties. When used regularly it prevents from regathering of dust and dirt.

Available
volume:
600ml | 6l | 10l

FINAL WAX PC215

Hydrowax with a dehumidifier

A highly concentrated product with drying and polishing properties. Instantly removes the layer of water from the surface of the car leaving a high gloss. It also provides a very good varnish protection. It can be used with a hard as well as soft water either warm or cold. It is applicable in all types of installations in car washes. It does not leave stains.

Available
volume:
1l | 6l | 10l | 20l

EASY WAX PC207

Car wax – Quick Detailer

Wax based on nanotechnology, fast application of the product. Protects the varnish by leaving a delicate layer along with perfect shiny finish. Diminishes small scratches, discolorations and deposits. It leaves a delicate protective layer. Protects the varnish against dirt and adverse weather conditions.

Available
volume:
200ml | 750ml | 6l | 10l

DEFROSTER

PC210

Window De-Icer

Quickly and effectively removes ice crystals and frost from frozen external surfaces of windows, headlights and mirrors.

Available
volume:

750ml

LEATHER PROTECTOR

PC103

Leather cleaner and care preservative

Its special formula gently cleans the surface of the leather. It contains a blend of natural oils and moisturizing waxes. It can be used for cleaning and preservation of all types of leather, i.e.: - car upholstery, furniture (sofas, armchairs), boots, clothes, handbags. It does not leave an oily layer. It does not require rinsing and does not dry the leather. It leaves a pleasant fragrance.

Available
volume:

200ml | 750ml | 6l

GLAMOUR

PC225

Neutral active foam

Very thick active blue foam, designed for washing cars protected with hard waxes or ceramic coatings. Thanks to its exceptional consistency, it stays on the cleaned surface for a long time removing all road dirt easily. Moreover, the distinctive color and intense fragrance will ensure that every wash becomes an extremely pleasant experience.

Available
volume:

1l | 6l | 10l

TAPI

PC206

Rug and upholstery cleaner

The product is intended for manual washing of carpets, rugs and upholstery. It is also very good for cleaning car headlining. Reduces surface tension separating the fiber from dirt. It neutralises unpleasant odours.

Available
volume:
600mL | 6L

DEEP

PC220

Air freshener – new car

Perfect air freshener for eliminating unpleasant smells. Creates a refreshing atmosphere in any room, car or closet. Very efficient and easy to use, long lasting fragrance.

Available scents:

- PC 220 - passion flower
- PC 221 - green tea
- PC 222 - fruit fusion
- PC 223 - new car

Available
volume:
200ml

AIR FRESH

PC208

Air freshener

Perfect air freshener for eliminating unpleasant smells. Creates a refreshing atmosphere in any room, car or closet. Very efficient and easy to use, long lasting fragrance.

Available scents:

- PC 208 - vanilla
- PC 209 - green apple
- PC 217 - green tea

Available
volume:
750mL | 6L

NON STICKY

PC014

Product for cleaning varnished surfaces

Removes residual glue, tape, tar and foil without the risk of discoloration or damage to the paint. It has a pleasant orange fragrance. The product is ready for use.

Available
volume:

200ml

TRUCK URBAN

PC021

A highly concentrated product for cleaning commercial vehicles

Two-phase, highly concentrated product for non-contact washing of commercial vehicles. Ideal for washing buses, trams, railway cars or trucks. Removes heavy staining, while remaining safe for the bodywork and varnish. TRUCK URBAN is a very efficient concentrate.

Available
weight:

1kg | 7kg | 11kg | 22kg

BLOODY MARY

PC224

Deironizer – bloody rim

Thanks to its gel consistency, it stays on the cleaned surface for a very long time. It easily removes brake pad deposits from rims as well as any dirt formed on the road. Suitable for all types of rims and hubcaps.

- Safe for chromed and polished wheels
- Removes any metallic contamination

Available
volume:

750ml | 6l | 10l

**LEMON / ALMOND****PC001 / PC020***Lemon/Almond scented gel paste*

n excellent hand washing product. Removes oil, grease and soot. The composition of the paste has been developed in a way to ensure excellent washing properties and is gentle on skin. Thanks to its formula, it removes even heavy build-up of dirt, while ensuring perfect hand hydration. The ingredients of the paste are not harmful to the environment and are completely biodegradable.

Available
volume:**500ml | 1l | 6l | 10l****EKO****PC002***Hand washing paste*

EKO hand washing paste is perfect for removing oil, grease and soot. The composition of the paste has been developed in a way to ensure excellent washing properties and gentleness to the skin. Special additives regulate the acidity of the paste to the value of the skin surface (pH = 5.5), so that it does not cause irritation. The ingredients of the paste are not harmful to the environment and are completely biodegradable.

Available
volume:**500ml | 5l | 10l**

ALU EXPERT

PC006

Aluminium Cleaner

Acid cleaning agent designed mainly for cleaning surfaces made of aluminum and its alloys. It can also be used for cleaning surfaces made of other metals. Perfectly removes all corrosion and lime deposits as a result of using hard water.

Available
volume:

1l | 6l | 10l | 20l | 60l | 200l

TRUCK

PC007

Multipurpose Cleaner

An ideal cleaner designed for cleaning all industrial surfaces resistant to alkaline environment. Ideal for:

- cleaning car tarpaulin
- production halls
- car workshops
- transport vehicle and other mode of transport (buses, trams, railway wagons)

Available
weight:

1kg | 7kg | 11kg | 22kg | 66kg | 220kg

TRUCK STRONG

PC019

Highly concentrated product for washing trucks

Two-phase alkaline product for non-contact washing of trucks, tanks, agricultural machines and containers. It dissolves even the heaviest dirt (grease, oil, fat, soot) without destroying the cleaned surface.

Available
weight:

1kg | 7kg | 11kg | 22kg

EXPERT

PC004

Cleaning and degreasing concentrate

A powerful cleaning and degreasing concentrate. It easily removes oil, grease and tar. Designed to use in the form of emulsions with water in concentrations of 1 – 20%.

Ideal for cleaning:

- grease stains from all types of floors
- production and public service halls
- machines and mechanical parts
- petrol stations
- car workshops

Available volume:

1l | 6l | 10l | 20l

DPF CLEANER

PC018

DPF and EGR Cleaner

Product used for cleaning diesel particulate filters (DPF / FAP) and EGR valves. Removes tar, soot and ash formed during the use of a diesel car.

Available volume:

1l | 6l | 10l | 20l

ROST

PC008

Rust and scale remover concentrate

The product is designed for cleaning ceramic, metal, glass and plastic surfaces. Removes rust and limescale formed as a result of using hard water.

Available weight:

0,7kg | 1kg | 8kg | 12kg

SUPER CLEAN

PC009

Concentrate for floor cleaning equipment

Low-foaming concentrate designed for floor cleaning equipment. It finds its use in floor scrubbers and high pressure machines.

Available
volume:

1l | 10l | 20l

FLAT EXPERT

PC005

Industrial floor cleaning concentrate

The product is designed for cleaning all surfaces resistant to the alkaline environment. Its composition ensures perfect wetting of cleaned surfaces and effective dissolution of dirt. It easily removes oil, fat and grease. The concentrate has been developed for industrial cleaning services using all mechanical and pressure washing equipment.

Available
volume:

1l | 6l | 10l | 20l

MOTO CLEANER

PC010

Engine cleaner

An effective cleaning agent which composition has been developed for use in the automotive industry. It is designed for washing traction components of motor vehicles, such as: engines, bodywork, rims, parts made of aluminum and plastic. Effectively removes oil, grease, grease and soot. It does not react with aluminum and other metals, does not leave stains on plastics, does not damage seals and electrical wiring.

Available
volume:

600ml | 6l | 10l | 20l

**BRAKE CLEANER**

PC013

Brake cleaner

A universal product for cleaning and degreasing - the ideal cleaning effect in a short period of time. Removes old and hardened grease, does not damage rubber and plastic parts, does not cause corrosion. It does not leave raids and stains, it removes grease, oil, soot, wax, etc. It gets rid of dirt from hard to reach places, evaporates quickly.

Available
volume:

1l | 10l | 20l

**WF STORM**

PC015

Washing solution for closed circuit washers

A washing solution, which evaporates very slowly from the cleaned surfaces allowing a thorough cleanse. It can be used repeatedly in a closed circuit. The product does not leave stains and tarnish, it does not destroy plastics and varnish layers. It is almost odourless, based on deomatomatised solvents.

Available
volume:

10l | 20l | 60l

**LAK**

PC003

Hand washing paste for varnishers

It is used in all areas of industry and services in which hands are particularly exposed to stains caused by varnish. The composition of the paste has been developed in a way to ensure excellent washing properties and gentleness to the skin. It does not clog up drains.

Available
volume:

1l | 5l | 10l

PRO MAT

PC011

Matte finish coating for varnish

The product is used with addition to water when matting the varnish.

- creates good adhesion for subsequent paint products
- reduces the formation of irregular scratches
- reduces eyelets
- does not clog sandpaper

Available volume:

1l | 6l

SMOOTH

PC022

Antifoam solution

An efficient solution for neutralising foam in all cleaning machines, so-called antifoam. Provides protection against foam formation in a dirty water tank in all types of industrial cleaning machines.

pH value: 6.5 - 7.8 – neutral.

The product is ready to use, it does not require dilution.

Available volume:

500ml

ICE KILLER

PC017

Granular Ice Melter

A granular ice melt leaving no white residues. In the case of icing or snow that is difficult to remove, sprinkle the surface with granules, wait a few minutes for partial melting of snow or ice, then remove the residue mechanically. Effective up to -50 ° C.

Available weight:

5kg | 10kg | 20kg

NANO

PC102

Glass Surface Cleaner

Product based on nanotechnology designed for cleaning all glass surfaces, plastic and laminated elements. Nano particles contained in the preparation form a layer that ensures faster water and dirt runoff. Additionally, prevents condensation of water. After just one application the surface is less susceptible to dust, dirt and water, leaving it clean, shiny, without stains and streaks. NANO is extremely efficient and evaporates very quickly from the cleaned surface.

Available
volume:

750ml | 6l | 10l

ROST ACTIV

PC101

Liquid agent for removing limescale from shower cabins, fittings and glaze

The product is designed to remove deposits formed during the use of hard water. Perfectly cleans all ceramic, metal and plastic surfaces. It leaves the surface shiny without stains. It is mainly recommended for cleaning rooms and sanitary facilities, such as: baths, sinks and fittings, shower cabins, urinals and toilets.

Available
volume:

750ml | 6l | 10l

LAMINEL

PC108

Cleaning solution for care of floor panels and PVC flooring

LAMINEL is a cleaning solution for care of floor panels and PVC flooring. Effectively removes all dirt, restores the beautiful appearance of the floor leaving it shiny for a long time.

Available volume:

1l | 6l | 10l

BASIC

PC106

Thorough Cleaning Solution

A concentrated cleaning solution designed for cleaning all surfaces resistant to the alkaline environment. It has cleaning and degreasing properties. Effectively removes dried dirt, greasy stains, soot, etc. It is irreplaceable for cleaning grout.

Available weight:

1kg | 7kg | 11kg

MAGIC

PC109

Cleaning solution for care of ceramic tile floors

Product designed for everyday cleaning and care of washable floors i.e. ceramic tiles. Effectively removes all dirt, restores the beautiful appearance of the floor and leaves it shiny for a long time. It does not leave streaks.

Available volume:

1l | 6l | 10l

**BURNOUT**

PC104

Fireplace and oven liquid cleaner

Product designed to remove tarry deposits in fireplaces and ovens. It can also be used to remove any burns from the surfaces of pans, pots, gas and electric cookers. Perfectly cleans the interior of ovens and smoking chambers.

Available
volume:
600ml | 6l

**IMPERIAL**

PC116

Washing gel

Concentrated washing gel for all types of washing machines and hand washing. Effectively removes dirt by penetrating deep into the fabric. It takes care of colors and is easily rinsed out. It makes clothes become clean, fresh and pleasant to touch. Can be used for white and colored laundry.

Available
volume:
1,5l | 4l | 10l

**INTENSIVE**

PC115

Fabric conditioner

A highly concentrated liquid. Thanks to its incredible intensity it allows you to enjoy freshness for a long time. special softening additives make the fabrics soft and pleasant to touch. Moreover, INTENSIVE minimises the crease of the material, facilitates ironing and makes clothes non-static. It protects fabrics from stretching, color fading and pilling. It owes its name to the intense fragrance that will fill your home after each wash.

Available
volume:
1,5l | 4l | 10l

PC112
Kitchen cleaner

Very effective kitchen cleaning spray with a pleasant fragrance. It is suitable for cleaning gas and microwave ovens, induction hobs, hoods, countertops, ceramic tiles and other surfaces. It can also be used to clean stainless-steel. Easily removes grease and dried dirt leaving a shiny surface with a pleasant fragrance.

Available
volume:

600ml | 6l | 10l

SOFT ORANGE

PC105
Orange Hand Soap

Liquid soap with a pleasant fragrance of orange. Effectively removes dirt leaving the skin smooth and soft to touch. Effectively removes dirt leaving the skin smooth and soft to touch. It does not irritate the skin.

Available scents:

- PC 105 - agrumi
- PC 113 - latte e miele

Available
volume:

500ml | 1l | 6l | 10l

SHINE

PC103
LCD and Monitor Cleaning Spray

The product is intended for cleaning surfaces made of artificial materials, such as monitors and LCD screens, LEDs, etc. It can also be used to clean plexiglass. Contains anti-static ingredients to prevent gathering of dust. Removes nicotine discoloration and does not leave streaks. It is very efficient and NON-TOXIC.

Available
volume:

200ml | 750ml

**WASH MASTER**

PC110

Dishwashing Liquid

An extremely effective and efficient dishwashing concentrate. It easily removes fat and other impurities, such as coffee or tea residues, or burnt dirt. It does not leave stains and is safe for the skin.

Available scents:

- PC 110 - lemon
- PC 114 - raspberry

Available volume:

1l | 6l | 10l

**FLUSH**

PC111

Toilet Cleaning Gel

Suitable for cleaning toilet bowls, shower drains, bathtubs and wash basins. It easily removes limestone formed as a result of the use of hard water.

Available volume:

750ml | 6l | 10l

**TAPI WASHER**

PC107

Concentrate for washing rugs and upholstery

Low foaming concentrated liquid for washing rugs and upholstery. Perfectly removes stains from textile surfaces resistant to water. It prevents from recontamination. It neutralises unpleasant odors, leaving a fresh smell for a long time. Can be used for wet vacuum cleaners and for hand washing.

Available volume:

1l | 6l | 10l | 20l
